DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 15, 63, 65, 176, 226 and 261 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

At claim 15, "the obtaining a serious intent rating" lacks antecedent basis. For purposes of the following restriction requirement, the examiner has assumed that claim 15 depends on claim 13.

The dependence of claim 63 on claim "65" is indefinite. For purposes of the following restriction requirement, the examiner has assumed that claim 63 depends on claim 60.

At claim 65, "the obtaining a serious intent rating" lacks antecedent basis. For purposes of the following restriction requirement, the examiner has assumed that claim 63 depends on claim 60.

At claim 176, "the component for obtaining a serious intent rating" lacks antecedent basis. For purposes of the following restriction requirement, the examiner has assumed that claim 176 depends on claim 174.

At claim 226, "the component for obtaining a threshold serious intent rating" lack antecedent basis. For purposes of the following restriction requirement, the examiner has assumed that claim 226 depends on claim 224.

The dependence of claim 261 on claim "262" is indefinite. For purposes of the following restriction requirement, the examiner has assumed that claim 261 depends on claim 162.

3. Applicant is required to submit an amendment in reply to this Office action, correcting these errors. Applicant is also encouraged to examine the dependencies of all the claims before preparing the amendment.

Election/Restrictions

4. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - A. Claims 1-266, drawn to method and system for determining a serious intent to purchase a good or service, classified in class 705, subclass 14.
 - B. Claims 267-324, drawn to system for determining likelihood, classified in class 463, subclass 17.
5. Inventions A and B are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention B has utility separate from that of invention A such as conducting a lottery. See MPEP § 806.05(d).
6. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, search, or patentability requirements, restriction for examination purposes as indicated is proper.
7. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
